It will promote an increased alignment between EU-Thailand interests, principles, policies and values, complemented by increased awareness, understanding, and approval of the EU and its role in the country, the region and the world. More specifically, the Facility will promote universal and shared values on human rights, democracy, gender equality, security, the environment, business and trade relations. By doing so it will deepen bilateral trade and investment relations, based on shared principles on sustainable production and consumption, strengthen environmental protection and conservation in Thailand, while supporting climate change mitigation and adaptation and, more broadly, the implementation of the 2030 agenda and the Sustainable Development Goals (SDGs). Furthermore, it will allow the EU to uphold universal Human Rights values, to better respond to global challenges and to build resilience in a flexible, forward-looking and strategic manner in its relationship with Thailand and other partners.
