1.2 Summary of the Action

This Action aims to cover **technical assistance**, monitoring and support for follow-up activities directly required for the sound implementation of financial resources managed by the EU Delegation in South Sudan. Considering the complex, fragile and insecure context in South Sudan, there is a need for specific technical assistance to support the EU Delegation in monitoring of EU supported programs with the implementing partners, in particular in marginalised areas.

It also aims to provide complementary support for the **identification and formulation of new actions** the EU may consider to undertake in South Sudan, through studies, assessments and other specific technical assistance. Given the complexities and volatile context in South Sudan, there is a need for specialised technical assistance to support the EU Delegation for defining well targeted and focused future cooperation activities.
