1.2 Summary of the Action

The Multiannual Indicative Programme (MIP) 2021-2027 for the Republic of Mauritius focuses on (1) Environmental protection and climate change adaptation and resilience, and (2) Good Governance. A Team Europe Initiative (TEI) “Environment and Climate Change for a green recovery” will have a central role in the pursuit of this strategic objective of the MIP, including to achieve both impact and visibility. It involves all Team Europe members active in Mauritius - namely the EU (including through Interreg), France (notably the Embassy, AFD and the Region of Reunion) and the European Investment Bank (EIB). The TEI is expected to combine development support and financial instruments with coherent high-level political dialogue to deliver on the expected results and allow a structural response to the Covid-19 crisis, through a cleaner, greener, sustainable, low emission and climate-resilient economic recovery.

The Cooperation Facility, branded European Solidarity Action with Mauritius (EnSAM) - Cooperation Facility (CF), aims to strengthen the cooperation between the EU and the Republic of Mauritius. Specifically, the CF aims to:

- (1) Support the EU Delegation and institutional partners in the implementation of the MIP, of the Government’s emerging needs and priorities, and of the TEI;
- (2) Support policy dialogue with governments and other key stakeholders; and
- (3) Support the EU’s strategic communication and public diplomacy in Mauritius.

The key stakeholders will be the government, public and private institutions, non-governmental organisations and the civil society (such as foundations, producer associations, business federations, advocacy groups, etc) based and established in Mauritius.

The action will contribute to the achievement of SDG 16 (Peace, Justice, and Strong Institutions), as well as SDG 5 (Gender Equality), 8 (Decent Work and Economic Growth), and 17 (Partnerships for the Goals).
