BICYCLE BOULEVARD PROJECT

A 1.4 mile bicycle boulevard was created from University Way and Wenas Street to the John Wayne Trailhead at the Kittitas County Fairgrounds, primarily utilizing 7th Avenue.

Completion of the project resulted in the installation of pavement markings and signage to promote safe bicycle travel along the route with vehicle diverters at five key intersections to calm vehicle traffic on the roadway.

Stop signs at three intersections were reconfigured to reduce bicycle traffic flow interruptions.

Project Start Date: 05/02/2017

Project End Date: 06/13/2017

Funding: WSDOT Pedestrian/
Bicycle Safety grant of
\$120,000 with city funding of
\$28,880
