

MAXSPAN™ WITH TWISTCLAMPS™

**INDUSTRY'S BIGGEST BREAKTHROUGH OF THE DECADE
IN INSTALL SPEED FOR FIXED TILT STRUCTURES**

StubPost™

- With adjustable extender to handle rolling ground without grading
- 35% shorter and lighter stub posts for faster handling and faster post driving
- Simply install StubPost™
- Then install extender and base bracket at the same time

Preassembled "Swiss Army Knife" Beam

- One worker carry by weight
- Just bolt it onto post extender, cut zip tie, swing braces and brackets into position, and bolt down
- All hardware and brackets pre-attached and in assembly kit
- Super simple staging: one unit replaces previous staging of nuts, bolts, brackets, braces, and beam

TwistClamps™ Increase Install Speed 400%

- 400 modules per worker day versus 100 with nuts and bolts
- One worker inserts and twists all pre-assembled TwistClamps™ into purlins
- Follow-up workers slide modules under TwistClamps™
- Workers then use torque wrenches to do just one final rotation on the pre-attached serrated flange nyloc nut to reach required torque and simultaneously grounds the module
- Modules always align even if posts and beams are far out of alignment since workers can slide modules north and south under TwistClamps™
- No power tools or hardware needed
- No follow-up torquing operations required

**BANKABLE QUALITY
VALUE PRICING**

GameChange Solar is driven by its mission to repower the planet with clean solar energy. We do our part by driving fixed tilt racking and tracker equipment costs lower. With over 10 GW sold, GameChange systems combine fast install, bankable quality and unbeatable value through superior engineering, innovative design and high volume manufacturing.

**Best in Class
Customer Service Team**

**Superior Engineering in Structural,
Civil, Mechanical & Electrical**

**In-House Logistics
for On Time Deliveries**

**One Stop Solution for Geotech
and Pull Test Services**

**TOGETHER
LET'S REPOWER
THE PLANET**
