The author says:

If you are interested in Lora or workflow, you can send me a private message. I will study the implementation plan and train Lora, and update the tutorial for everyone in time. Thank you for your support.

Drag PNG into comfyui to open the workflow!!!

Feel free to use it for learning and fun.
We hope you'll support its commercial use.

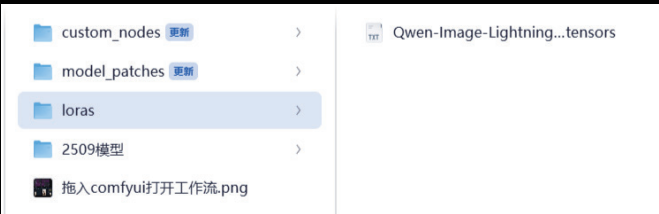

Installation Tutorial

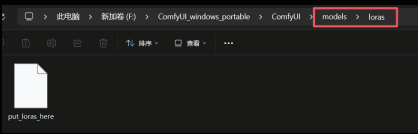

Copy custom_nodes to a local folder

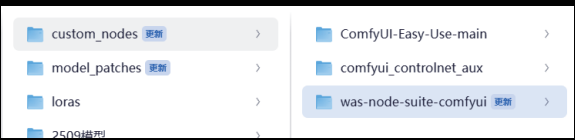

inpaint: ComfyUI_windows_portable\ComfyUI\models\model_patches

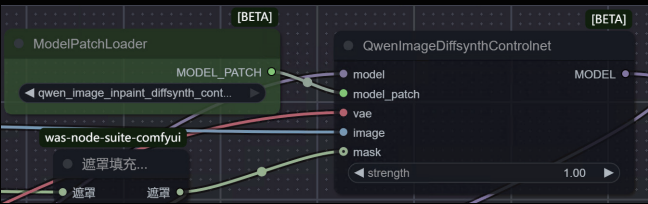

Lora
