

LeRobot Hackathon Checklist

Planning a hackathon is an exciting adventure that **brings people together to create, collaborate, and innovate**. Whether it's your first time hosting or you're a hackathon pro, having a solid plan will help make sure everything goes smoothly and everyone has a great time!

A hackathon isn't just about coding; it's about creating an awesome environment where people can learn new things, share ideas, and meet others who are just as passionate. From finding the right venue to managing teams, there's a lot to think about, but don't worry – we've got you covered! 🤖

This checklist is here to walk you through every step of the way, from getting started to wrapping up your event. It'll help you stay organized and make sure nothing is left out so you can focus on what really matters – creating a fun and unforgettable experience for your participants!

So, this guide will help keep things on track. Feel free to follow it or not, it's your choice. **If you have any questions, ask on the discord channel for hosts:** <https://discord.gg/NHdFd7kB>.
